## 1. Instalation & Basic settings

0) Install wordpress . Video: <https://vimeo.com/17147778>

1) Download the theme from themeforest.net

2) Go to Wordpress Admin Panel -> Appearance -> Themes. Click "Add new", then upload archive "rentit.zip"

3) Click "Activate theme" then click "Begin activating plugins"

4) Activate all required plugins

5) **Import demo data.** Go to "Appearance"->Import demo data and click "Import". **Note:** Sometimes after this step some plugins may be deactivated, just enable them again.

6) Go settings->permalinks and click "Save"

To work correctly, you must activate all required plugins (Follow instructions after activate theme) and add special pages (**or just import demo data**):

## Change map style

- 1) Choose the right type of card to <https://snazzymaps.com>. Next, copy the json code
- 2) Go to the Dashboard -> Customize your site -> Map style and paste the code in the box stylemap\_json (screen looks like)
- 3) Save changes

## 2. How to add a car

- 1) Go to Wordpress Admin Panel ->Products ->Add Product
- 2) Select Car rental product
